Field Day 1991

By Alan Roehl, K07B

The 2nd and 3rd days of summer brought large crowds of people to Banks, Oregon. Many of them dressed in medieval attire. For a moment I thought that Banks had become the site of a modern day Robin Hood adventure. In the center of all the action, however, I found the OTVARC Field Day operation.

The OTVARC operation consisted of two main stations and one Novice/Technician station. Carl, WS7L, did a great job of coordinating the main stations. Bill, AA7HV, volunteered to use his call. The Novice/Technician station used Janet's call, WB7FJC. Red, AA7CP, set up a station that demonstrated satellite operation.

On Saturday afternoon (during the Field Day operations), some of our club members held a ham radio test session in the adjacent Banks High School. Volunteer examiners included Bob, WF7Q, Alan, AA7CV, Bill, AA7HV, Randy, KZ7T, Ira, KF7QS and Dale, W7FBP. Randy's wife Cheryl was especially helpful with the administrative duties. A total of 18 persons took advantage of the test session, with 5 successfully upgrading and 8 qualifying for a new license.

Special thanks goes to our pres (Ray, K7VDQ) for coordinating the arrangements for this year's field day operation.

OTVARC Travelers

By Jerry Mohr, N7KUQ

The next OTVARC campout will be July 19, 20, & 21 at Skamokawa Vista Park which is 0.5 miles west of Skamokawa, Washington on highway SR-4. It is located on the banks of the Columbia River and has a boat ramp. Recreation includes salmon fishing, swimming, playground, and recreation field.

One thing nice about this park is the shipping channel is near the park and the ships going up and down the Columbia River are only a short distance away. Electricity is available for some of the sites but plan to be self contained with water. You can fill up your water tanks at the park. The park has covered areas for use in case of inclement weather, restrooms, and showers.

One way to get to the park is to take highway 30 out of Portland towards St. Helens and at Rainier, OR cross over the Columbia River bridge into Longview, WA. Turn left at the first light at the bottom of the bridge and continue on this road until you meet highway SR-4. Turn left onto highway SR-4 which takes you toward Cathlamet and Skamokawa is about 10 miles past Cathlamet, WA. Use 145.67 simplex frequency in the vicinity of the park.

Geno Buell, KA7KBH, is the Wagonmaster for this campout.

July Regular Meeting Location Change

July 10, 1991

Valley Conference Center - Community Room

9368 S.W. Beaverton-Hillsdale Hiway
Beaverton, Oregon

Social Hour 6 P.M. to 7 P.M.

Meeting starts at 7 P.M.
